

To avoid problems, we ask your attention for the following points:

1. Check before installing

- . All oil seals for leaks. Refresh in case of doubt.

2. Additional points for attention:

- . Oil plugs: Provide filler, level and drain plugs with new sealing rings.
- . Oil filling: Always follow the dealer specification for viscosity, filling quantities and filling procedure.
- . Check: Check the oil level again after the test drive and check for any leaks.
- . Follow (de) assembly instructions according to factory data (tightening torques etc)

3. Other:

- . Oil seals and any supplied thrust bearings are not covered by the warranty.
- . Old gearbox returned to Maresia Parts. (unless otherwise agreed)
- . Announce your return request for the old gearbox by e-mail (mention invoice number and address)
- . If you have any questions, please contact our sales department.
